

Study Title: Investigating the Family and Child's Experience of Microtia and Hearing Loss

Are you a young person/adult with microtia?

A research student at Aston University is looking for young individuals aged between 18 and 25 to take part in a new research study funded by Microtia UK.

What is involved in the study?

The study involves an interview with our researcher about your experience of growing up with microtia and what decisions you have made about your microtia.

Who can take part?

Any 18–25-year-olds with microtia.

What will it involve?

A 1-hour interview online or in-person with the researcher

To take part in the study, please email our researcher Saira Hussain:
